About us

MX2 GLOBAL – Import & Export Partners – is a Spanish wholesaler offering competitive food and wines to foreign importers and supermarkets chains. We provide the possibility to source original supplier brands or to produce private label products.

We facilitate transactions directly between suppliers and buyers/importers. By identifying client demands and suggesting the correct supplier, we optimize sourcing costs and time to procurement managers while secure an international client base to our trusted manufacturers.

Main products for us are Spanish wines and a wide range of food products such as: commodities, canned/frozen fish & seafood, fresh/canned fruits & vegetables, dried/preserved legumes, dairy products, frozen and fresh meat, Spanish Serrano Ham & Ibéricos, fruit juices, gourmet and organic food, table olives & pickles, olive oils, traditional Spanish food...

Over the past years, we have built up a global network of reliable suppliers, and today our business partners are located in different continents, and we import food & beverages into Spain directly from origin.

Our team will be more than happy to assist you with any questions.

A FULL RANGE OF DAIRY PRODUCTS
